AAK

LIPEX® Bassol C™

Brassica Campestris Seed Oil

Clear, high stability base oil that offers an excellent alternative to low spreading synthetic emollients and eliminates the common challenges experienced when creating formulations with vegetable oils. [#MineralOilAlternative](#) [#OxidativeStability](#)

Use level: 1-15%

Functions: emollient

LIPEX® SheaSoft TR™

Butyrospermum Parkii (Shea) Butter

This climate-compensated, fully traceable semi-solid shea butter has a creamy texture, slow melting profile, rapid crystallization, and proven skin moisturization benefits. [#KoloNafaso](#) [#ProblemSolver](#)

Use level: 1-30%

Functions: emollient, moisturizer

LIPEX® SheaSolve™

Shea Butter Ethyl Esters

Eco-friendly shea-derived emollient ester offering excellent wetting, dispersing, and solubilizing properties. Compatible with mineral and organic UV filters and shows SPF boosting properties in mineral formulations. [#FullyRenewableCarbon](#) [#UVBooster](#)

Use level: 1-80%

Functions: emollient, wetting agent

LIPEX® SheaLiquid TR™

Butyrospermum Parkii (Shea) Butter

Climate-compensated, fully traceable, low-spreading liquid butter rich in unsaponifiables and linoleic acid that delivers high stability and moisturizing benefits. [#ColdProcess](#)

Use level: 1-10%

Functions: emollient

LIPEX® SheaLuxe TR™

Ethyl Oleate, Ethyl Stearate

This shea-derived, climate-compensated, fully traceable emollient ester is an excellent alternative to non-volatile silicones in light skin care formulations that demand a soft, silky texture, and non-greasy after-feel. [#SiliconeAlternative](#)

Use level: 1-75%

Functions: emollient

LIPEX® IllipeSoft™

Shorea Stenoptera Seed Butter

Cosmetic grade illipe butter expertly processed with an optimized crystallization profile, ensuring easy formulating and upscaling. [#FunctionalButter](#)

Use level: 1-15%

Functions: emollient, texturizing agent

LIPEX® Shea

Butyrospermum Parkii (Shea) Butter

Climate-compensated, optimized pure shea butter with a superior crystallization profile and high oxidative stability. [#ProblemSolver](#) [#OxidativeStability](#)

Use level: 1-10%

Functions: emollient

Pacific Blends

Vegetatum®

Various

Proprietary plant-based gel technology that builds viscosity and increases melt point for added thermostability. Functional petrolatum alternative with comparable moisturization and water repellency benefits without the tackiness or greasiness. [#PetrolatumAlternative](#)

Use level: 1-99%

Functions: emollient

Sun Care

Alchemy Ingredients

Luxamul®

**Xanthan Gum, Sapindus Mukorossi Extract, Sclerotium Gum**

Cold-process, all-in-one solution for thickening and emulsification that is highly compatible with a wide range of actives. With proven moisturization properties, this mild low usage level ingredient creates smooth emulsions with a luxuriously silky, silicone-like feel. [#ColdProcess](#)

**Use level:** 1-3%**Functions:** emulsifier

Sophocoll®

**Water, Sodium Cocoyl Collagen Amino Acids, Glycolipids**

A mild surfactant blend that can be used to boost foam and increase moisturization of surfactant based products with proven benefits for skin and hair. [#SulfateFree](#) [#Fermented](#)

**Use level:** 1-20%**Functions:** cleansing, conditioning agent

Green Line

Biofer™ Sugar Kelp

**Lactobacillus/Laminaria Saccharina Ferment Filtrate Lysate**

Skin firming active featuring a ferment of Laminaria Saccharina (Sugar Kelp), sustainably sourced off the coast of Maine, that significantly improves skin elasticity, and increases collagen I up regulation. [#Fermented](#)

**Use level:** 1-3%**Functions:** active

Imbue™ Coconut MB

**Water, Cocos Nucifera (Coconut) Oil, Glycerin, Polyglyceryl-6 Stearate, Glyceryl Caprylate, Carmathus Tinctorius (Safflower) Oil, Xanthan Gum, Rosmarinus Officinalis (Rosemary) Leaf Extract**

Novel emulsion concentrate with a high internal phase developed to create everything from sprayable emulsions to gel-cream textures with few additional ingredients. [#ColdProcess](#)

**Use level:** 0.5-50%**Functions:** emulsion concentrate

Quimivita

Vita Mela Stop®

Tranexamic Acid

Highly water soluble whitening active, with a well documented safety profile, that prevents and reduces pigmentation in addition to significantly accelerating barrier recovery.

**Use level:** 0.5-5%**Functions:** active

Vita Silky Fluid® CC

**Tetradecane, Dodecane, Isoamyl Laurate**

Natural, high purity biodegradable emollient with an outstanding sensory profile for silky smooth skin and hair. [#SiliconeAlternative](#)

**Use level:** 1-99%**Functions:** emollient

UPCork Aox®

**Glycerin, Water, Quercus Suber Bark Extract**

Active liquid solution with a high content of polyphenols, obtained from upcycled cork, that enhances skin firmness and elasticity with significant antioxidant and UV-protective capabilities. [#Upcycled](#)

**Use level:** 1-3%**Functions:** active

Nouryon

Structure® M3

Sodium Hydrolyzed Corn Starch Dodeceny succinate

Waterless, free flowing, readily biodegradable co-surfactant that significantly reduces the irritation potential of commonly used surfactant systems, offering the optimal balance of mildness, cleansing, and foaming. [#Biodegradable](#)

**Use level:** 0.5-5%**Functions:** cleansing, conditioning agent
