100.00

Procedure

1. Add Phase A ingredients and slowly mix until clear and homogeneous.

How To Use

Dispense a small amount into hands, adjusting for hair length and thickness. Evenly distribute from mid-length to ends of towel dried hair. Can also be used throughout the day to control frizz and replenish shine.

Stability Tested

3 months 5°C, room temperature, 40°C

Freeze/Thaw 3 cycles

Physical Data

Appearance Light yellow/beige liquid

pH N/A

Viscosity N/A
